# About Detailing Devils

who we are?

# About... Detailing Devils

---

## Who we are?

A one stop **car care solution** providing exclusive range of cutting-edge car beauty products and **World class Nano Coatings & Paint Protection Film (PPF)**. Thorough research and understanding the needs of a true automotive enthusiast resulted in the establishment of **Detailing Devils Pte Ltd., Singapore**. Detailing Devils is a leading automotive detailing company. For years it has worked on multifunctional protective coatings for automotive surface, reinventing the ways to wash, clean, detail and coat a vehicle with extreme care and cutting edge technology Nano compound (Nano ceramic). Through diligent efforts, continuous research and testing it has developed **10H DNA**, a Nano ceramic coating, which successfully protects surfaces like vehicle paint, fabric, leather, glass, plastic, and rubber. Since its beginning (**2017**), Detailing Devils has always offered only the best with their products & services while striving to constantly improve it.

## Why us?

Detailing Devils is India's leading car detailing services and nano ceramic coating services brand that makes a vehicle look superb through its premium range of products and services. It was brought to India from Singapore in 2016 by an automobile

fanatic with a vision to shine and protect the maximum number of vehicles possible. We have established ourselves firmly in the industry and expanded to **73+ studios** all over India and the world.

## What we do?

We specialize in Washing, Detailing, and Car & Bike coating for vehicles such as 'Skin Restoration Service' (SRS), 9H DNA Absolute Nano Ceramic Coating, 10H DNA Graphene, Paint Protection Film, to name a few.

## How we do it?

We make use of the latest and the most advanced technology in the automotive detailing industry as well as high-quality environment-friendly products to give a superior look to a vehicle.

More importantly, our staff is passionate about their job and highly motivated to make you feel great about your ride.

## Important Features

of Detailing Devils Products

### EXTRA PROTECTION

All Detailing Devils products provides a vehicle an additional layer of protection against various external elements. They protect the vehicle's surface from even the UV rays that can cause a vehicle's paint to fade over time.

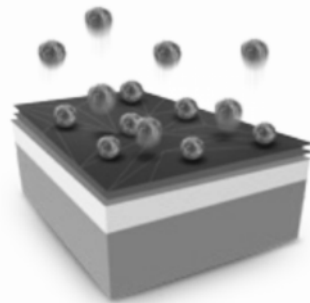

### LOOK NEW FOR LONG

Our coatings give the showroom shine to a vehicle as well as the ease to maintain it. They enhance your riding joy as well as its resale value if you wish to sell it in the future.

### EASIER TO CLEAN

Sure a vehicle needs to be cleaned regularly to keep it in top-notch condition but our products have such a repelling power that it becomes quite easier to do so. After our coatings have been applied, dirt and other substances aren't able to bond with a vehicle's surface and let it look neat and clean.

### MORE DURABILITY

Our products make a vehicle and its paint much more durable. A car's paint lasts much longer and also becomes easier to care for. The vehicle is also protected against physical hazards such as minor scratches, small rocks, debris etc.

Dragon  
PPF

**Dragon Paint Protection Film** is the **superior way to protect and enhance** your vehicle, with a proprietary formula that provides unmatched protection from extreme temperatures, **UV rays** and other environmental factors. Dragon PPF is the **world's first** paint protection film with an industry-leading **multilayer TPU structure** that stretches to accommodate intricate lines, making it possible to protect the paint at tight spots as well. At the **same time**, this technology provides a **better effect** and **greater protection** for the vehicle compared to other systems in the market.

***Even the powerful needs Dragon's Protection***

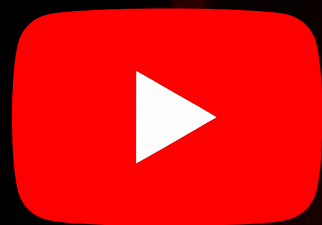

**Dragon Paint protection film** also has a proprietary **D.N.A.™ hydrophobic** protection that repels liquids and reduces water marks, keeping your car looking pristine and beautiful. The product is scientifically formulated to help protect automotive finishes, using the same **DNA™ technology** found in **Detailing Devil's Coats**.

Dragon Paint Protection Film is the most advanced, professional and **cost-effective** film in the market. Dragon's unique **nano-coating** technology creates a **unique look** that stands out from the rest, while providing **unparalleled protection** for your vehicle.

# PROTECTION X APPEALING

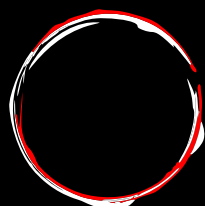

## SELF HEAL PROTECTION

An advanced **self-healing** layer with a heat **activation** that renews the film back to its original state. **Never** worry about minor **scratches again**.

## SOLVENT PROTECTION

**Resistant** to solvents and **alcohol-based liquids**, designed to guard a vehicle's paintwork from damage caused by corrosive substances.

## STAIN PROTECTION

**Protects** your paint **from the splats of insects, bird droppings, tree sap** that cause damage to your car.

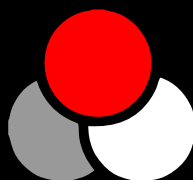

## D.N.A HYDROPHOBIC APPEAL

Proprietary advanced technology help **protect** your car **from Liquid Damage** with technology proven to repel liquids, keeping the car cleaner for a **longer period** of time.

## MIRROR FINISH APPEAL

**Superior optical clarity** of the film intensifies original paintwork, creating a **mirror-like shine**.

## COLOUR RETENTION APPEAL

**Formulated** for **excellent UV, heat** and **water resistance** to preserve paintwork. Its UV resistant so **it won't yellow over time**.

# PERFORMANCE

## DRAGON PPF PERFORMANCE

Dragon PPF Performance is a "State of The Art" automotive paint protection film. It's among the finest paint protection films available, with exceptional coating technologies. The multi-layer films have been engineered to ensure outstanding installation handling, optical clarity and long term durable properties and also comes along with 7 year warranty.

Dragon PPF Performance offers the ultimate paint protection by offering poly-phenyl-fluorethylene technology. This unique liquid quencher film is self-healing and has some interesting properties of hydrophobic and anti-corrosive. It provides unparalleled clarity that promises to protect your car's original color and low yellowing paint work resulting in an unparalleled level of UV protection, keeping your automobiles looking as fresh and new as the day they were first painted.

## DNA.. GRAPHENE

The Devils are taking their automobile protective coating game to the next level with **DNA Graphene Coating**. Unlike any other coating product in the market currently, this brand new coating has **10H Hardness** and outshines its predecessor significantly.

**DNA Graphene** creates a superb and **ultra-flexible coating** that can be applied to almost every surface that exists. It's versatile, one-size-fits-all, and uses the latest nano-technology to give your car great results for the years to come.

### SPECIFICATIONS

Surface Type	: Automotive Paint
Durability	: 6 year
Coating Thickness	: 700-1000 nm
Temperature Durability	: 150° C
Chemical Resistance	: 12>pH>1
Curing Period	: Overall 48 Hours

## MORE THAN 80% HYDROPHOBIC EFFECT

A huge advantage of this product is its outstanding hydrophobic effect and durability. Long term tests in real life conditions have shown durability over 12 months with a hydrophobic effect exceeding 80% of the outcomes just after the coating.

## LONGER DURABILITY

Our graphene coating is much sturdier and more effective than ceramic coating and other graphene coatings in the market. It is thin, lightweight, and offers an unsurpassable and glossy finish to the vehicle for a long period of time.

### Brand New Innovation ...

The DNA Graphene utilizes the latest nano-technology to give your vehicle 6+ years of high-quality protection.

### 10H Hardness ...

It is a coating that lasts for a long time, thanks to its 10H Hardness feature.

### Ultra-High Gloss & Depth of Colour ...

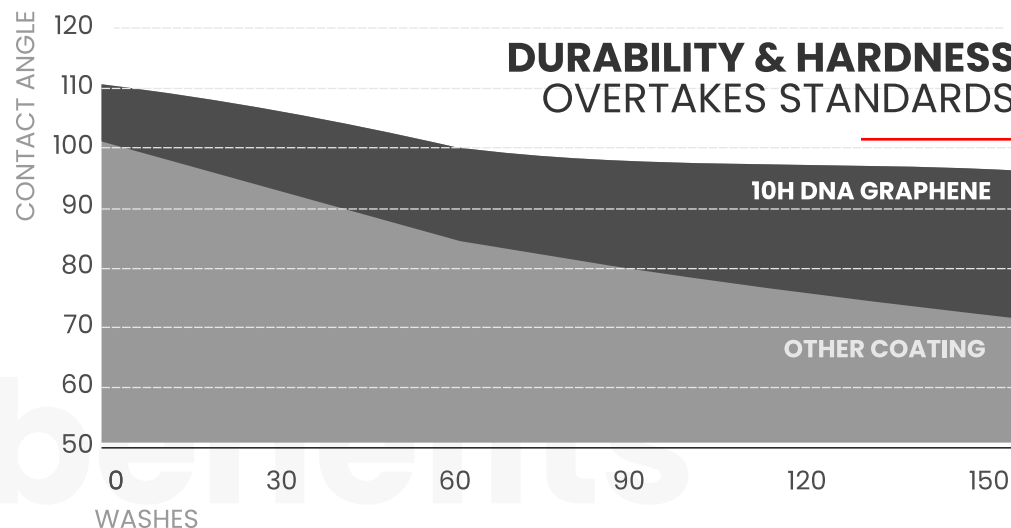

It gives a rich, attractive, and deep gloss to the vehicle's surface that takes the elegance and appearance of a vehicle to another level.

# CRYSTAL VISION

**Crystal Vision** is one of our most reliable and advanced car coatings specifically developed for windshields.

It's excellent hydrophobic feature and water-beading effect makes water form tiny beads and slide down the surface and leave it completely dry. Hence, better vision while driving in rains. The anti-glare feature of this coat promotes **better night vision**.

This coating adds thickness to the surface and prevents it from breaking off easily. In addition to this, the superb oleophobic feature prevents the windshields from surface harms like **bird-poops, tree sap**, etc.

## WHEEL... NANO ARMOR

**Wheel Nano Armor** is the best protection coat developed for all types of wheels specially alloys which has been formulated to withstand heat created by the braking system of vehicles.

In addition to that, it protects wheels against dirt, mud and sludge, with a highly durable protection coat that prevents them against oxidation and harmful UV rays while making their surface resistant to splashes of muddy, dirty water and thus, helps them with keeping up their shine and a spot-free finish.

It forms an outstanding rather permanent chemical bonding with the surface of wheels and gives them an excellent stain & contaminant-resistant ability.

## NANO... SHINE ARMOR

**Nano Shine Armor** is a revolutionary tyre coating that has been specifically developed to restore the black shine of tyres.

Unlike waxes and polishes, it is non-oily, non-greasy, environmentally-safe and silicone free tyre coating with properties like mud-repellence and permanent adhesion.

Silicone based coatings are quite destructive as they promote tyre yellowing, cracking and can destroy the UV protectants that are essential to the life, color, and texture of a tyre. **Nano Shine Armor** doesn't wear off easily and gives tyres a highly durable and protective coating that protects them from yellowing, fading and cracking over a period of time and helps in maintaining their spotless black shine.

# T A

## NANO... TRIM ARMOR

**Nano Trim Armor** is a special water based nano tech coating used to bring back life to faded interiors.

Environmental elements and prolonged use can damage any vehicle affecting dash trim, and other interior parts like wood panels, doors, etc. and forms permanent adhesion with the surface applied on so that it doesn't fade or lose their shine. Usually, silicone products add temporary shine and do not offer any longtime solution. Moreover, silicone oils have been known to dry out the applied areas creating a bigger problem of leaving a greasy residue even after buffing.

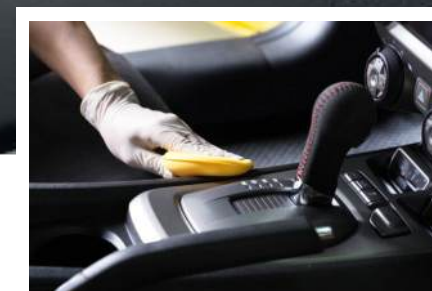

**Nano Trim Armor** makes sure to overcome all these shortcomings and give car interiors a permanent protective coating.

# FABRIC

## FABRIC... NANO ARMOR

**Fabric Nano Armor** is an industrial nano coat which has been specifically formulated to protect car's textile surfaces from fading, stains, water or any other impurities.

The oleophobic feature of **Fabric Nano Armor** protects fabrics from water and oil based stains. It also makes them more breathable and extremely durable due to anti-fouling ability.

In addition to that, it makes ordinary fabrics waterproof and easy to clean. Not just protection, it also gives the interiors a pleasant fragrance.

# DETAILING...

## SRS

### Skin Restoration System

**Skin Restoration System (SRS)** is a detailed paint correction and restoration process that has been developed to eradicate stubborn impure contaminants from vehicle's surface and help restore its factory finish and appearance through a step by step process.

It is a **5 step process** under which we target surface level harm like scratches, swirl marks and clear coat haze or those scratches that have gone through the painted surface. After undergoing skin restoration process, cars exhibit a fine, sleek and smooth finish and can further undergo protective coating process.

# DUAL ACTION POLISHER - 3"

Coating Daddy 3 inch mini polisher is a powerful detailing tool to remove swirls and scratches with ease thanks to its massive 12 mm orbit.

It also has a tremendous correction ability that professional detailers demand. The powerful 400 watt motor in 3" Dual Action Polisher ensures it doesn't bog down under light loads.

## SPECIFICATIONS

- Input Power - **500 Watt**
- Voltage - **220-240v AC**
- Frequency - **50/60Hz**
- Speed - **2500-5500 /min**
- Backing Plate Size - **74mm(3inch)**
- Foam Pad Size - **74mm (3inch)**
- Weight - **1.9 kgs**
- Thread - **5/16-24**
- Power Supply Cord - **5 Meter**
- Orbit Size - **12mm**

## FEATURES

01

### Perfect for all polishing operations in difficult to reach areas

Coating Daddy 3" Dual Action Polisher is durable and versatile as it can be used in even the most difficult to reach areas.

02

### Unique and High-Tech Design

Its design is a blend of modern lines and exceptional technical quality combined with a number of details aimed at achieving maximum operator comfort.

03

### Accurate and Comfortable

Maximum flexibility allows comfortable handling and accuracy in detail polishing.

# DUAL ACTION POLISHER – 21MM

Coating Daddy 21MM Dual Action Polisher is the smoothest running and the most conventional random orbital polisher. It has a throw of 21 mm that ensures a perfect finish. The advantage of a larger throw is that more surface area is being covered as you polish. This means you will be able to remove swirls, scratches, water spots and other paint defects in considerably less time.

## SPECIFICATIONS

- Input Power – **900W (Max.1200W)**
- Voltage – **120-230v AC**
- Frequency – **50/60Hz**
- Speed – **1800-4800 /min**
- Backing Plate Size – **150mm(6inch)**
- Foam Pad Size – **180mm(7 inch)**
- Weight – **2.9 kgs**
- Thread – **5/16"-24**
- Accessories – **6inch backing plate**
- Power Supply Cord – **5 Meter**
- Orbit Size – **21mm**

## FEATURES

01

### **Compatible with 6-7 inches pad**

Coating Daddy 21MM Dual Action Polisher is appropriate for use with 6-7 inches pads.

02

### **Remarkable engineering and exquisite craftsmanship**

Coating Daddy 21MM Dual Action Polisher is a world class tool as it is manufactured with remarkable engineering and exquisite craftsmanship.

03

### **No swirls or holograms are instilled into the paint as you polish**

Being a premium and perfectly crafted detailing tool, Coating Daddy 21MM Dual Action Polisher leaves no swirls or holograms when you polish.

04

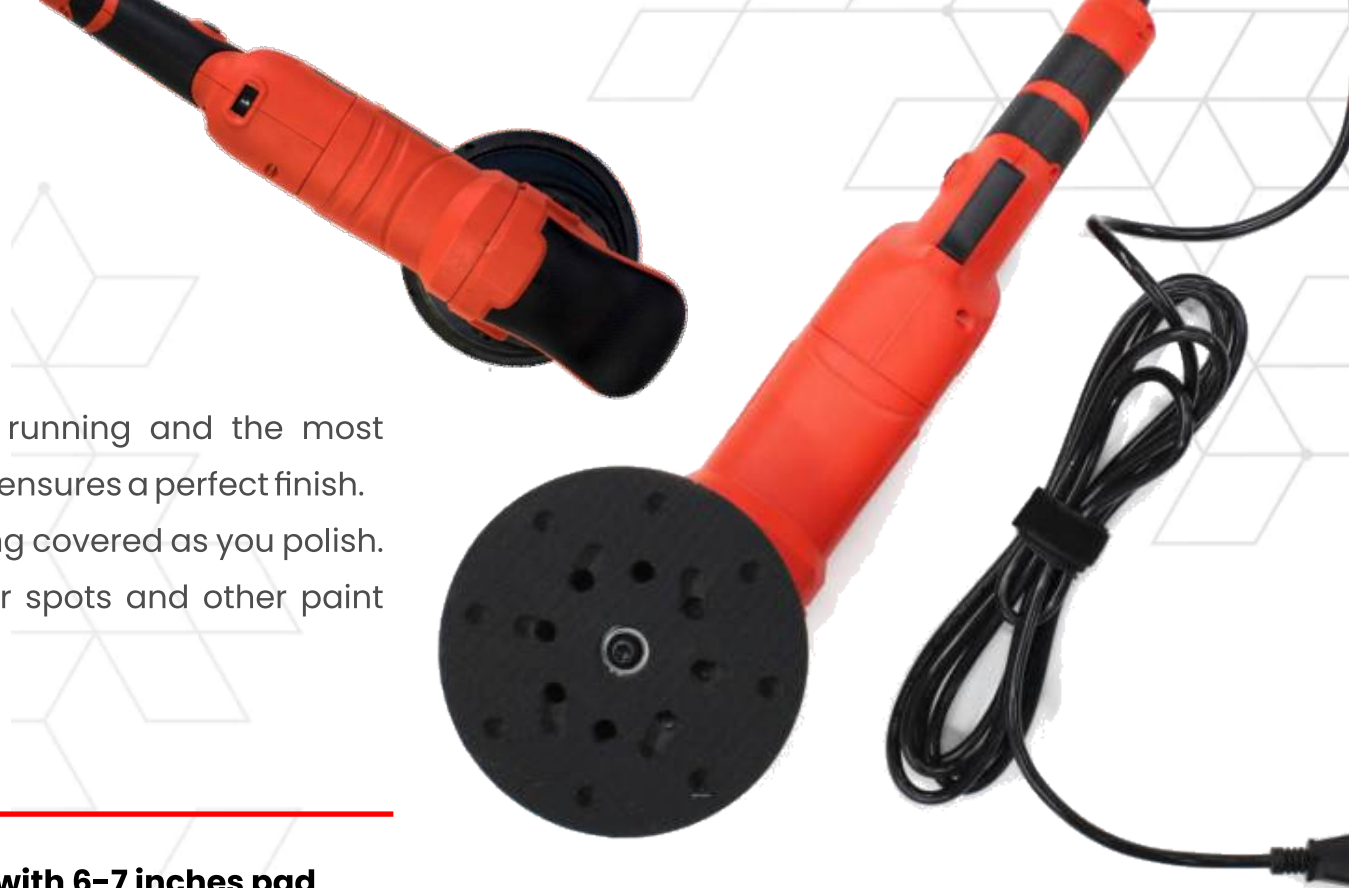

### **Speed regulation**

Coating Daddy 21MM Dual Action Polisher has a speed regulator that you can use to adjust the speed of your detailing job conveniently.

05

### **Two handed handle**

Trigger lock on the handle can be pressed to lock the Coating Daddy 21MM Dual Action Polisher in motion.

# COATING DADDY SUCKER - VACUUM CLEANER

Coating Daddy Sucker Professional Vacuum Cleaner has powerful 5.5 Peak HP motor which ideal for cleaning low-pile carpet and spot cleaning car interiors. The 8 Gallon capacity tank with a drain port allows you to clean longer and easily empty the tank so you can get the job done quicker. Coating Daddy Sucker Vacuum Cleaner comes with a washable cartridge filter and a HEPA-material exhaust filter. A foam wet filter is supplied for wet-pick up and shampoo mode. The cartridge filter and foam filter are both recyclable.

# COATING DADDY PAD WASHER

Coating Daddy Pad Washer can easily clean and refresh polishing pads for efficient polishing work. You can clean out foam pads, wool pads, microfiber pads, Hex-Logic Pads, and Quantum Pads to remove residues that affect polishing results and ruin expensive buffing pads.

The Coating Daddy Pad Washer is developed to suit both wool & foam pad cleaning. It is a completely enclosed pad washing system that cleans and dries used polishing pads.

## SPECIFICATIONS & FEATURES

- Dimensions - **26cmx 38cm Height**
- Weight - **1.5kg**
- Volume - **20L**
- Washer size - **260x380 mm**

### **Conditions and dries every type of buffing and polishing pad**

Coating Daddy Pad Washer is the Professional's secret to clean, condition and dry every type of buffing and polishing pad.

### **Maintains maximum polishing effect in any detailing or body shop setting**

Coating Daddy Pad Washer doesn't deteriorate the polishing effectiveness of any pad as it's a premium product and washes the pads gently.

### **Removes more residues and particle abrasives than any other pad cleaning method or tool**

Coating Daddy Pad Washer is better at removing residues and particle abrasives than most pad washing machines in the market.

# ELECTRIC HOSE REEL

10 Meter

An Electric hose reel is one of the most required equipment in auto detailing services. And Coating Daddy Electric Hose Reel is 10 meters long with a unique slow return system. Also its rust and corrosion resistance allows you to handle a wide variety of projects.

## SPECIFICATIONS

- Cable Length - **10m+1.5m**
- Cable Type - **H05VV-F 3x1.5MM2**
- Socket - **AC250V/16A/50Hz**
- Case Material - **PP**
- Temperature - **(-5) Degree to 55 Degree**

## FEATURES

- 01 Aluminum Frame**  
The frame of Coating Daddy Electric Hose Reel is made of premium aluminum.
- 02 Light Weight Design**  
Coating Daddy Electric Hose Reel is lightweight hence extremely easy to use.
- 03 Rust and corrosion resistance**  
Coating Daddy Electric Hose Reel is resistant to rust and corrosion, thanks to its premium quality.
- 04 Slow Return System**  
Coating Daddy Electric Hose Reel has a slow return system hence you can use it whenever you feel like without much effort.

# COATING DADDY PAINT THICKNESS GAUGE

Coating Daddy Paint Thickness Gauge is an excellent tool to gauge the thickness of automotive paint. It provides precision paint thickness on each part of a vehicle and lets you know how much it needs to be worked.

Being equipped with easy to use features, screen, and history of previous paint thickness examinations, it's a perfect tool to have in your detailing inventory.

## SPECIFICATIONS

- Measurement Range - **0~1350 m**
- Data Storage - **320 readings**
- **Multi Language**
- CPU - **16 bits MCU**
- Multi point Calibration - **Yes**
- **One Key Data Clear (Press to delete)**
- **Multi-Level Battery Indicator**
- **Digital Display**
- **Auto Power Off**
- **USB Interface**
- Power Supply - **2 x 1.5V AAA Batteries**

## FEATURES

01

### **Two measure modes: Single and Continuous**

Can be operated in two measure modes: single measure mode and continuous measure mode which makes it superior to other thickness gauges in the market.

02

### **Statistics display**

Coating Daddy Paint Thickness Gauge has detailed statistics display so that the detailing can be done as accurately as possible.

03

### **Low battery & error indication Size**

Coating Daddy Paint Thickness Gauge also indicates low battery and error so that the user can make amends wherever required.

# COATING DADDY DETAILING WORK LIGHT

The Coating Daddy Detailing Work Light creates the best lighting experience with its high end LED and advanced optical design. Its built-in lithium-ion rechargeable batteries allow for quick and convenient USB charging thus saving trouble from frequent battery replacement.

Its lamp body also comes with a USB output port and can serve as a power bank for your smartphone or other mobile devices in emergency. It's also equipped with a flexible support handle which lets you use it for working, hiking, camping, hunting, exploring, and searching etc.

## SPECIFICATIONS

- Bulb Type - **10 Watts LED**
- Power Source - **4400MAH Lithium battery**
- Product Size - **70 x 22.5 x 44 mm**
- Product Weight - **456.5g**
- Material - **Nylon TPR**
- Operation Mode - **High-Low-Flash-Off**
- LED life - **100,000 hours**
- Brightness - **750 Lumens**
- Working time - **About 2.5 hours**
- Charging time - **About 5-6 hours**

## FEATURES

- 01 USB Charge**  
Coating Daddy Detailing Work Light is USB charge enabled thus can be charged easily and quickly.
- 02 Power Bank Function**  
Coating Daddy Detailing Work Light can also be operated while connected to power bank.
- 03 3 lighting modes: bright, low & flash**  
Coating Daddy Detailing Work Light can be operated in 3 lighting modes: bright, low and flash which makes it a superior light for different circumstances.

## 04 Waterproof

Coating Daddy Detailing Work Light is premium and waterproof.

## 05 Multiple uses

Coating Daddy Detailing Work Light is a versatile light and can be used for innumerable purposes like hiking, camping, hunting, exploring, and searching etc.

# COATING DADDY PEN LIGHT

The Coating Daddy Pen Light has been specially designed to detect hidden swirl marks, scratches, holograms, and other gloss-hindering paint imperfections from a vehicle allowing you the convenience to track your progress while detailing.

It is short, handy and lightweight with an impeccable design to fit in your pocket and lets you detail freely.

## SPECIFICATIONS

- Bulb Type - **1W LED (head)/5 red LED (Tail)**
- Power Source - **2\*AAA batteries Not Included**
- Product Size - **2.5\*3.8\*17.7CM**
- Product Weight - **55G**
- Material - **ABS+TPR**
- Operation Mode - **1W LED (head)/5 red LED (Tail)**
- LED Life - **100,000 hours**

## FEATURES

01

### Portable

Coating Daddy Pen Light is extremely easy and convenient to carry, thus can be taken anywhere.

02

### Small & lightweight

Coating Daddy Pen Light is small and lightweight and can be kept even in your pocket.

03

### Easy to use

The use of Coating Daddy Pen Light is easy and hassle-free.

04

### Extremely bright LED light

The light of Coating Daddy Pen Light is high performance LED and ultra-bright so no swirl marks or scratches can hide from its illumination.

# COATING DADDY DETAILING TROLLEY

Coating Daddy Detailing Trolley is a 3 layer detailing trolley to simply stock your detailing equipment like polishes, towels, applicators, machinery, pads, etc.

You can use the top layer for the regular and smaller detailing tools like brushes, applicators etc. while the middle layer is perfect to store all your detailing towels. The drawer just below the top layer can be used to hold smaller products, accessories and devices you like to keep out of sight.

While the bottom layer is equipped with a lock that can be used to store perfectly the expensive detailing tools.

## SPECIFICATIONS & FEATURES

- Tray - **0.8 mm**

- Wheel - **Three inch plastic wheels**
- G.N/W - **9.85/10.3kg**

### Enough space to store three stacks of different categories of material

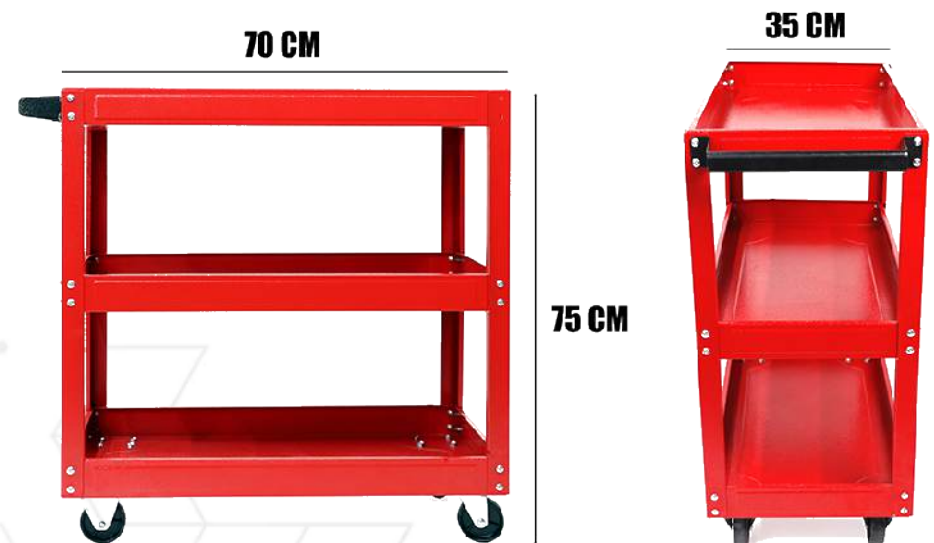

Coating Daddy Detailing Trolley has ample amount of space to store three stacks of different categories of material.

### Quite a Handy item to carry with you when you work around cars

Coating Daddy Detailing Trolley is a great item to keep with you whenever you work around any ride as you have easy access to whatever you want at any time.

### Best assistance in keeping the work-spot organized

Coating Daddy Detailing Trolley is a superb item for keeping the work-spot organized as it's easy to keep your products and tools together.

# Detailing Brush

Coating Daddy Detailing Brush Set is a set of 5 detailing brushes (in 5 different sizes) usable on both vehicle exterior & interior. They detail even the hardest to reach places & clean any spot where dust and grime collect and hide. Their dense-packed soft bristles have an extreme dense water absorbability and standup stiff to brush out all kind of dirt, grime & dust. Also, it's the safest detailing tool since they are made of chemical resistant ultra-soft wool heads that act brilliantly on road grime & stubborn dirt. They are ideal for cleaning around door jambs, body trim, badges, grills, wheels, lug nuts, engine bays, cup holders, etc.

## FEATURES

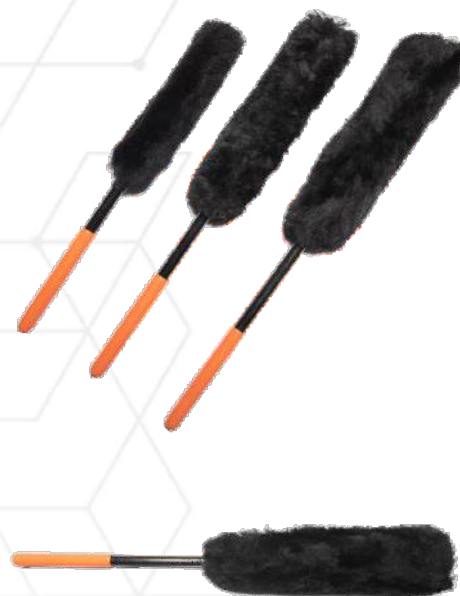

- 01 Gentle on surface finish**  
Coating Daddy Detailing Brushes are extremely gentle on surface ensuring neat and scratch-less cleaning and detailing.
- 02 Easily remove tough grime from all the nooks and crannies**  
Coating Daddy Detailing Brushes remove the toughest of grime from all the surfaces and corners.
- 03 Can be used to apply large amount of solution**  
Coating Daddy Detailing Brushes can carry a large amount of solution hence complete long hours job in considerably less time.
- 04 Safe on the painted as well as plastic surface of the vehicle**  
Coating Daddy Detailing Brushes are totally safe to use on all kinds of surfaces be it painted or plastic.

AVAILABLE IN  
Set of 5

# Wheel Cleaning Brush

Coating Daddy's wheel cleaning brush is made of deep absorbent ultra-soft wool for effortless cleaning. It reaches difficult spots with its long & flexible handles and is effective against grease, brake oils, road grime, etc. It's a set of 3 wheel cleaning brushes that clean wheels & rims easily & effectively with soft bristles to reach difficult parts of the wheels. It's made from 100% sheepskin wool & chemical resistant ultra-soft wool heads and come with non-scratch flexible handles that act well on road grime & brake dust.

## FEATURES

- 01 Highly effective on brake dust**  
Coating Daddy's wheel cleaning brushes get rid of the brake dust better than any other wheel cleaning brushes in the market.
- 02 Dense water absorbability**  
Coating Daddy's wheel cleaning brushes have great water absorbability which lets them clean large areas in less time.

Coating Daddy Applicator Sponge doesn't let your hands become dirty by providing a superior coating job.
- 05 Promotes even, consistent coating application**  
Coating Daddy Applicator Sponge gives an even and consistent coating application thereby eliminating the chances of rework.

# Yellow Polishing Pad

Coating Daddy Yellow Polishing Pad in yellow has a soft composition for applying the glaze, finishing polish, sealants, and liquid waxes. It comes in full contact with the painted surface to minimize the pressure applied by the user and is firm enough to withstand added pressure during final finishing to remove buffer swirls. It has no cut and will apply thin, even coats of waxes, sealants, and glazes.

## FEATURES

01

### Suitable for both rotary and dual action buffers

Coating Daddy Yellow Polishing Pad is compatible with both rotary and dual action buffers and delivers tremendous results.

02

### Advanced bonding system

Coating Daddy Yellow Polishing Pad has an Advanced bonding system which makes it stand out from other polishing pads in the market.

03

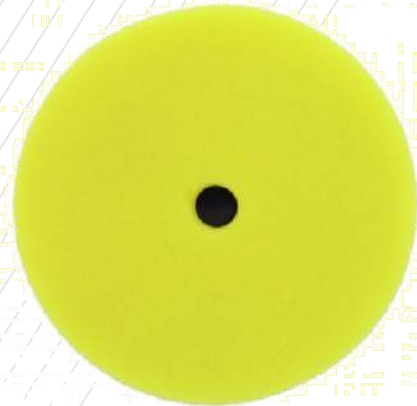

### Hook & loop material to prevent slipping and detachment

Coating Daddy Yellow Polishing Pad has an effective hook and loop material that doesn't let it slip and detach from the polisher.

04

### Advanced foam compositions

Coating Daddy Yellow Polishing Pad is made of high quality and advanced foam which gives excellent polishing output.

AVAILABLE IN  
3-Inch, 6-Inch

# Yellow Medium Cutting Pad

# White Heavy Cutting Pad

Coating Daddy White Heavy cutting pad comes in two different varieties, hex logic and heavy cutting pad. It is a professional tool to remove hazy oxidation and evenly spreads compounds and polishes to a wide surface. They are extremely aggressive and should only be used on oxidized and older finishes.

## FEATURES

- 01 Cuts and Buffs the most stubborn oxidized automotive coatings**  
Coating Daddy White Heavy Cutting Pad is premium and durable hence it cuts and buffs the most stubborn and oxidized automotive coatings.
- 02 Brings out the highest level shine**  
Coating Daddy White Heavy Cutting Pad is designed to give a surface the maximum shine and elegance.
- 03 Flat pad design expands cutting area to reduce buffing time**  
Having a flat pad design, Coating Daddy White Heavy Cutting Pad provides maximum contact with the surface hence completes long detailing jobs in considerably less time.
- 04 Ring is flexible, bendable and easy to wash and re-use**  
Being flexible, bendable and easy to use, Coating Daddy White Heavy Cutting Pad goes easy on your pocket also.

AVAILABLE IN  
3-Inch, 6-Inch

# Woolen Heavy Cutting Pad

The Coating Daddy woolen heavy cutting pad removes the grittiest of scratches, leaving a smooth finish with very light hazing and few, if any, compounding swirls. These pads finish more like a foam pad than a wool pad so you have to do less finishing work to get a perfect shine.

## FEATURES

- 01 Most aggressive cutting pad**  
Coating Daddy woolen heavy cutting pad is the most aggressive cutting pad in the market that removes even the seemingly impossible scratches from a surface.
- 02 Will not leave the same coarse scratch**  
Coating Daddy woolen heavy cutting pad doesn't leave any scratch on the surface while working.
- 03 Restores dull, oxidized finishes with rotary polisher**  
Coating Daddy woolen heavy cutting pad works amazingly well with a rotary polisher to restore dull and oxidized finishing.
- 04 Works best on severe swirls, scratches and heavy oxidation**  
Coating Daddy woolen heavy cutting pad gets rid of even the most severe swirls, scratches and heavy oxidation with effortless ease.

AVAILABLE IN  
3-Inch, 6-Inch

# Sanding Interface Pad

Coating Daddy 6" Sanding Interface Pad increases the flexibility of a disc and helps to evenly distribute the machine movements and applied pressures brilliantly. It also increases comfort while you carry out the sanding process. It also buffers abrupt machine movements through its superb cushioning action. Coating Daddy 6" Sanding Interface Pad lets a 6" sanding paper stick to it effectively which makes it suitable for sanding automotive painted parts, automotive clear coats, primer and putty.

## FEATURES

- 01 Increases the flexibility of a sanding disc**  
Coating Daddy Sanding Interface Pad increases the flexibility of a sanding disc and comes in handy for working on curved, complex, or delicate surfaces.
- 02 Distributes pressure and machine action**  
Coating Daddy Sanding Interface Pad distributes pressure and machine action which is quite noticeable when working on soft or delicate surfaces.
- 03 Increases user comfort**  
Coating Daddy Sanding Interface Pad increases the comfort of the user, thanks to its foam cushion that absorbs high speed variations and side to side lateral movements that are created by the machine.
- 04 Works well on flat surfaces too**  
Coating Daddy Sanding Interface Pad works great on flat surfaces too due to its exceptional cushioning.

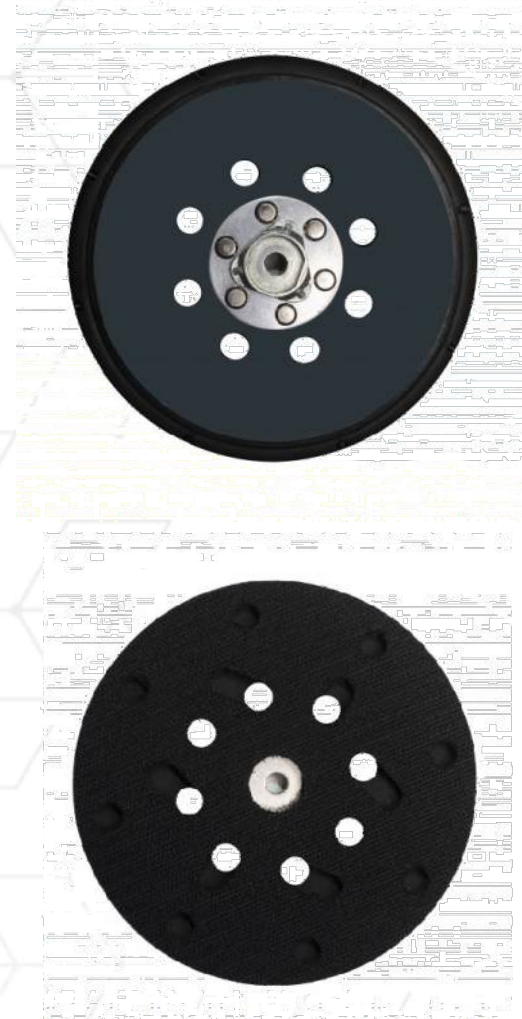

AVAILABLE IN  
6-Inch

# Backing Plate

Coating Daddy 6" Backing Plate is a superb replacement for the backing plate. It's ideal for all grades of pads, polishes and compounds and features less aggressive attachment material, making foam buffing pads super easy to remove.

## FEATURES

- 01 Applicable for foam pads & wool pads**  
Being high-quality and versatile, Coating Daddy Backing Plate is applicable for both foam pads and woolen pads.
- 02 Well Balanced for smooth polishing**  
Coating Daddy Backing Plate provides smooth and excellent polishing, thanks to its exceptional balance.
- 03 Multi-hole pattern for fast heat elimination**  
Coating Daddy Backing Plate has a unique multi-hole pattern to eliminate unnecessary heat and friction.

AVAILABLE IN  
3 Inch, 6Inch

Dragon  
PPF

Introducing a new innovative hybrid wrapping film: Dragon Tint. This is a special colour wrapping film with the finest rich colour pigment and excellent high gloss & matte finishes. It gives your vehicle an OEM paint like finish while protecting it from harmful daily elements.

Our line of Dragon Tint films have been developed to give your vehicle a beautiful and protective finish that is comparable to factory OEM paint. Dragon Tint films come in multiple shades and can be applied over any colour paint so you can create your own unique look.

### Lumilor®

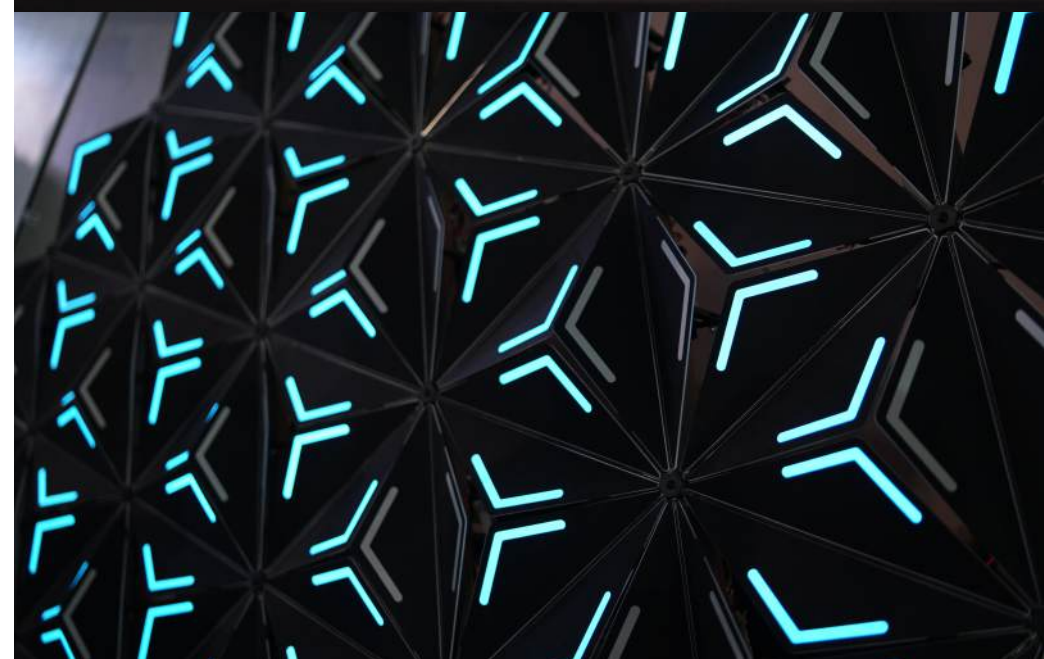

Lumilor is **World's 1st** four layer **Light Emitting Coating (LEC)** system which allows anything coated with it to **illuminate**. Lumilor is applied using a professional high volume / low pressure (HVLP) paint system. The skills needed to apply Lumilor are similar to the skills needed to apply other professional grade coatings with an HVLP system.

It's four layer coating system includes unique processes and specifications. Three to five hours is needed to apply all of the layers of Lumilor in standard conditions. Lumilor should be applied in an ambient temperature of at least 70 degrees Fahrenheit.

Lumilor is available in eight native colors, these are colors you see when Lumilor is lit. Aqua, Blue, Green, Yellow, Orange, White, Pink & Violet. Lumilor appears as a gray hue, similar to an automotive primer, when unlit. Topcoats (Airbrushing, Tinted clear coats, Colored top coats, Hydrographics, etc.) can be used to alter the appearance of Lumilor to create a desired effect.
