

DNA GRAPHENE

2021

DNA GRAPHENE

DNA Graphene creates a superb and **ultra-flexible coating** that can be applied to almost every surface that exists. It's versatile, one-size-fits-all, and uses the latest nano-technology to give your car great results for the years to come.

10H HARDNESS

The Devils are taking their automobile protective coating game to the next level with **DNA Graphene Coating**. Unlike any other coating product in the market currently, this brand new coating has **10H Hardness** and outshines its predecessor significantly.

KEY FEATURES

-  Brand New Innovation – The DNA Graphene utilizes the latest nano-technology to give your vehicle 6+ years of high-quality protection.
-  10H Hardness – It is a coating that lasts for a long time, thanks to its 10H Hardness feature.
-  More than 6 Years of High-Quality Protection.
-  Water, Stain & Scratch Resistant – The DNA Graphene not only protects your ride against minor scratches and damage but also against bugs, saps, bird droppings, etc.
-  Easy to Apply – Easy application gives this coating another edge over other graphene coating products in the market.
-  Gives a deeper, clearer, and shinier effect to the vehicle's surface – Your vehicle will never be the same as DNA Graphene Coating makes its surface deeper, clearer, and shinier.
-  Can be applied to a huge variety of surfaces – It can be applied on all painted surfaces, headlights, glass, trim, chrome, and whatnot.
-  3D Graphene Nano Structure – Being a physically strong coating, the DNA Graphene is more resistant to external damage, thanks to its 3D Nano Structure.

SPECIFICATIONS

Packaging	50 mL
Appearance	Colorless Liquid
Chemical Resistance	12>pH>1
Salt Water Resistance	Yes
Moisture Resistance	Yes
Pencil Hardness (ISO-15184:2012)	10H
Dry Film Thickness	0.9-1.1 µm
Consumption per Unit Area	4mL/m ²
Density @23°C	0.87g/cm ³
PH Value	5,5-6
Dry to Touch Time	2h
Application Temperature	5°C-30°C (≤50%RH)
Temperature Durability	150°C
Water Contact Angle	107° @20 µL
Water Contact Angle After "15000" Wet Scrub (ISO-11998:2006)	103° @20 µL
Water Sliding Angle	17° @20 µL
Oil Contact Angle	87° @20 µL
Gloss Rate @60° ISO-2813:2014	98 (Acrylic)
Volatile Organic Compound (VOC) (ASTM D-2369)	640 g/L (63%)
Reach Compliance	Yes
