# DNA Graphene 2021

**Product  
CATALOGUE**

The Devils are taking their automobile protective coating game to the next level with DNA Graphene Coating. Unlike any other coating product in the market currently, this brand new coating has **10H Hardness** and outshines its predecessor significantly.

# 10H HARDNESS

**10H HARDNESS**

**DNA Graphene** creates a superb and **ultra-flexible coating** that can be applied to almost every surface that exists. It's versatile, one-size-fits-all, and uses the latest nano-technology to give your car great results for the years to come.

# ULTRA FLEXIBLE COATING

**DNA GRAPHENE**

# KEY FEATURES

Brand New Innovation – The DNA Graphene utilizes the latest nano-technology to give your vehicle 6+ years of high-quality protection.

10H Hardness – It is a coating that lasts for a long time, thanks to its 10H Hardness feature.

More than 6 Years of High-Quality Protection.

Water, Stain & Scratch Resistant – The DNA Graphene not only protects your ride against minor scratches and damage but also against bugs, saps, bird droppings, etc.

Easy to Apply – Easy application gives this coating another edge over other graphene coating products in the market.

Gives a deeper, clearer, and shinier effect to the vehicle's surface – Your vehicle will never be the same as DNA Graphene Coating makes its surface deeper, clearer, and shinier.

Can be applied to a huge variety of surfaces – It can be applied on all painted surfaces, headlights, glass, trim, chrome, and whatnot.

3D Graphene Nano Structure – Being a physically strong coating, the DNA Graphene is more resistant to external damage, thanks to its 3D Nano Structure
