PRODUCT CATALOG

“A Luxurious Ode to Automotive Excellence.”

WHERE
PASSION — FOR CARS
MEETS PRECISION IN ~DETAILING.

“ We believe your car is more than just a means of transportation—it’s a reflection of your personality and a cherished investment. That’s why we’ve created a sanctuary for car enthusiasts, where every vehicle is treated with the utmost care and precision. Our mission is to redefine the art of car detailing, setting new benchmarks in the industry and ensuring every car that leaves our studio radiates brilliance like never before. ”

Introduction

Welcome to Detailing Devils, your ultimate destination for comprehensive car care solutions. Our exceptional range encompasses cutting-edge car beauty products and world-class Nano Coatings & Paint Protection Film (PPF).

Our unwavering commitment has yielded 10H DNA, an extraordinary Nano ceramic coating. This pinnacle of innovation safeguards vehicle paint, fabric, leather, glass, plastic, and rubber.

Since 2016, Detailing Devils has consistently delivered paramount products and services, persistently evolving and enhancing our offerings. Immerse yourself in a realm of automotive excellence – where every detail matters, and perfection is our constant pursuit.

What We Do?

Our expertise lies in a range of services including Washing, Detailing, Car & Bike ceramic coating and Paint Protection Film services.

Our offerings encompass cutting-edge solutions like 'Skin Restoration Service' (SRS), 10H DNA Absolute Nano Ceramic Coating, 10H DNA Graphene, and Paint Protection Film, among others.

Founder's MESSAGE

Hello, I'm Saurabh Ahuja

Founder - Detailing Devils

“ Dear Automobile Enthusiast,

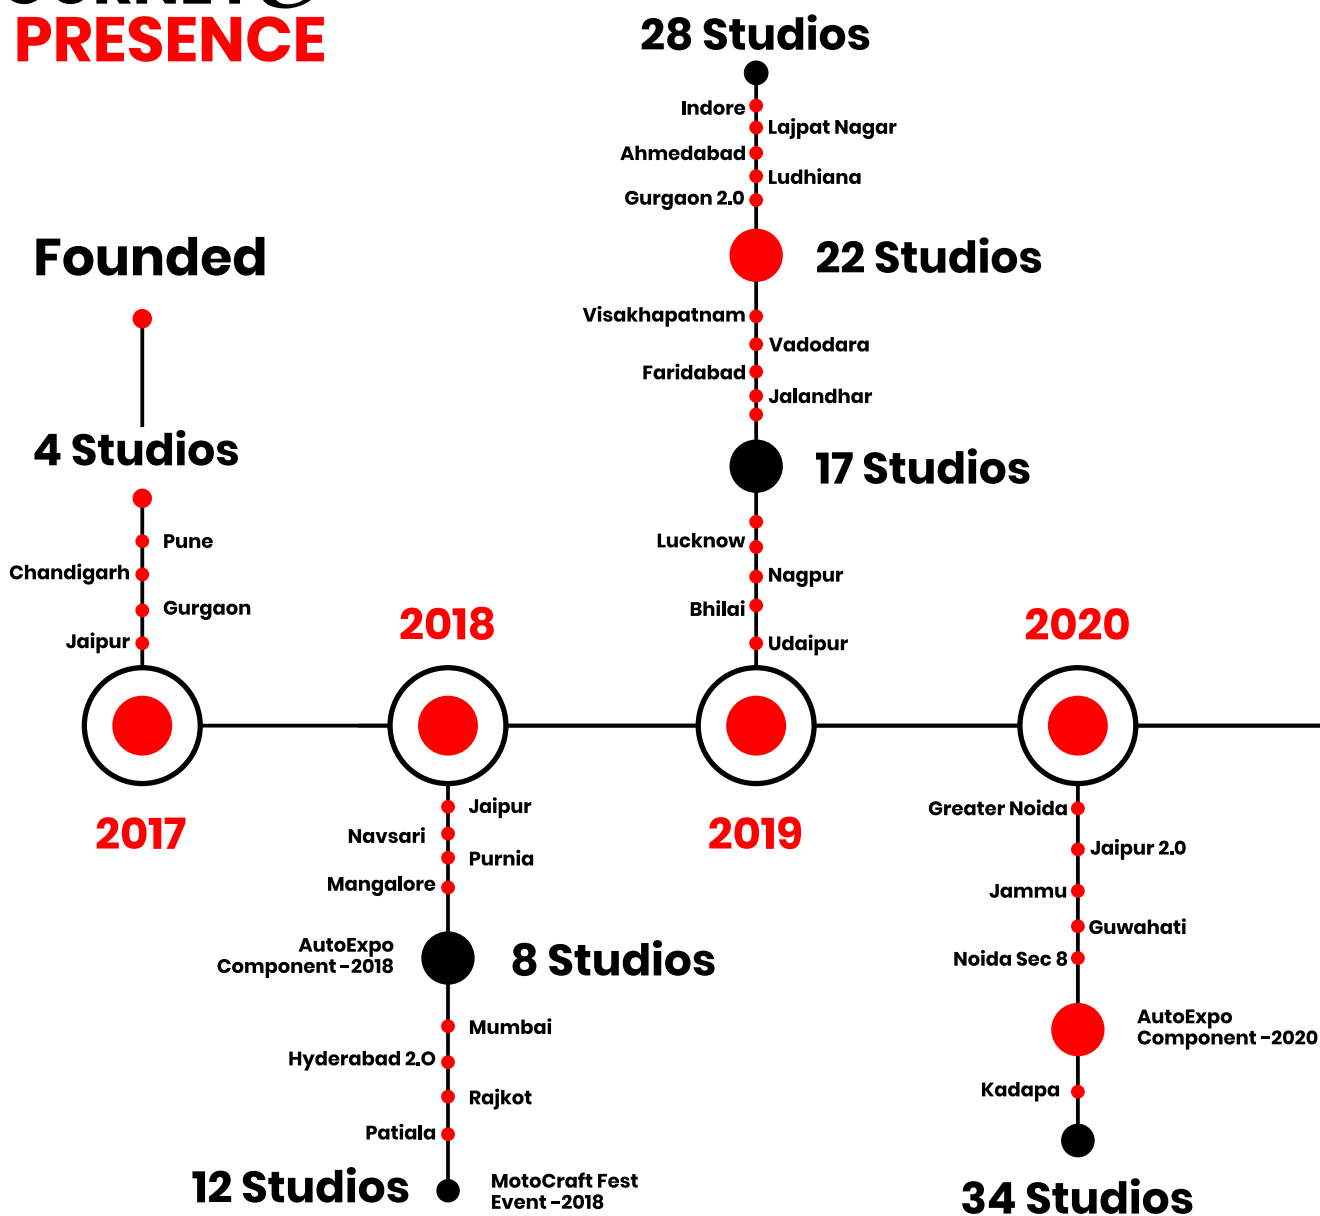

From the very inception of Detailing Devils, it wasn't just about offering a service; it was about bringing a vision to life. Born from personal passion and an unwavering commitment to excellence, our brand has always sought to bridge the gap between a car's functionality and its reflection of one's identity.

Every vehicle tells a story, much like my journey in establishing this venture. It began not just as a business, but as a tribute to the unparalleled beauty and intricacy automobiles bring into our lives. In a market teeming with generic solutions, Detailing Devils stood apart, echoing a unique story of dedication, challenges overcome, and an insatiable drive for perfection.

Trust is the backbone of any successful relationship. As I pen down this message, I assure you that entrusting your vehicle to us isn't just about detailing; it's about becoming a part of a legacy, a story, and a shared passion. It's about experiencing the very essence of luxury and witnessing your vehicle's rebirth.

In an era where personal stories often get lost amidst commercial cacophony, I invite you to become a part of our journey, to resonate with our core values, and to drive not just a car, but a masterpiece. ”

Dragon PPF

Experience the Pinnacle of Vehicle Protection with DragonPPF.

Elevate your vehicle's defense against the harshest of elements with DragonPPF, the epitome of advanced paint protection. Every layer of our protection film speaks volumes of innovation: from the crystal-clear Transparent Repair Coating that retains your car's showroom shine to the resilience of the Aliphatic TPU Base Layer. Infused with a Nano Ceramic Pigment Layer, DragonPPF doesn't just protect, it accentuates the depth and richness of your vehicle's color. What's more, the Japanese Adhesive Layer ensures an unwavering bond, making peeling and flaking concerns of the past.

But our mastery doesn't stop at the mere protection. With metrics that speak for themselves, our film boasts a significant Elongation Rate at Break of >300%, ensuring flexibility over intricate contours. The remarkable Hydrophobic Property rating of R9-R10 implies that water spots and droplets are effortlessly repelled, ensuring your vehicle remains pristine.

Even the powerful needs Dragon's Protection ...

Pet Release Film

SELF HEAL PROTECTION

Our paint protection film is designed with a unique self-healing feature. When minor scratches occur, the film automatically repairs itself, keeping the paint underneath untouched and looking as good as new. It's a reliable shield for your vehicle's finish

D.N.A HYDROPHOBIC

Proprietary advanced technology help protect your car from Liquid Damage with technology proven to repel liquids, keeping the car cleaner for a longer period of time.

SOLVENT PROTECTION

Resistant to solvents and alcohol-based liquids, designed to guard a vehicle's paintwork from damage caused by corrosive substances.

MIRROR FINISH

Superior optical clarity of the film intensifies original paintwork, creating a mirror-like shine.

STAIN PROTECTION

Protects your paint from the splats of insects, bird droppings, tree sap that cause damage to your car.

Dragon PPF Immortal Lite.

If you're looking to preserve the beauty of your vehicle or enhance its protection against impacts, soot, and harmful substances, Dragon PPF Immortal Lite is the perfect solution.

Our high-quality paint protection film delivers exceptional, long-lasting results, backed by a 4-year warranty* and featuring an impressive 7-mil thickness for added durability and peace of mind.

Sheen (Gloss Finish)

Unmatched Brilliance and Durability:

Experience the perfect blend of luxury and protection with the radiant finish of Immortal Lite. Its advanced self-healing technology makes minor blemishes vanish, keeping your vehicle's flawless appearance intact.

Backed by a 4-year warranty, Immortal Lite ensures every journey shines with elegance, setting a new standard in luxury and durability.

Haze (Matt Finish)

Timeless Matte Elegance:

The 'Haze' variant of Immortal Lite combines cutting-edge protection with the understated elegance of a matte finish. Offering a refined, timeless look, it delivers superior defense while exuding sophistication.

Backed by a 4-year warranty, it ensures your vehicle remains both protected and majestic for years to come.

Dragon PPF Immortal.

If you're looking to safeguard your vehicle's aesthetics and shield it from soot, impacts, and harmful elements, Dragon PPF Immortal is your ideal solution.

Our paint protection film delivers both dependable and visually striking outcomes, all while offering you peace of mind. Plus, it comes with a 5-year warranty* and boasts a 7.5-mil thickness for added durability.

Sheen (Gloss Finish)

Enhanced Excellence and Durability:

The 'Sheen' provided by Immortal effortlessly combines opulence with safeguarding. Its immediate self-healing capability guarantees the vanishing of minor imperfections, preserving its radiant allure.

In addition to its technical prowess, the 5-year warranty ensures that each adventure remains resplendent, elevating your vehicle to a symbol of luxury and resilience.

Haze (Matt Finish)

Majestic Matte Grandeur:

In the world of Immortal, the 'Haze' variation represents the convergence of cutting-edge protection and timeless matte elegance. It doesn't just promise top-tier defense; it also emanates a presence that is both regal and enduring, safeguarded and revered for a glorious span of 5 years.

Dragon PPF Immortal Pro.

Whether you want to preserve the beauty of your vehicle or better protect it from impacts, soot and harmful substances,

Dragon PPF Immortal Pro is what you need. Our paint protection film offers reliable and visually stunning results while providing peace of mind, with 7 year warranty* and boasting an impressive 8.5-mil thickness.

Sheen (Gloss Finish)

Elevated Brilliance and Resilience:

'Sheen' under Immortal Pro seamlessly marries luxury with protection. The instant self-healing feature ensures minor blemishes disappear, preserving its radiant aura.

Beyond its technical attributes, the 7-year warranty ensures every journey is luminous, setting your vehicle as the benchmark of luxury and endurance.

Haze (Matt Finish)

Regal Matte Excellence:

Immortal Pro's 'Haze' variant is where advanced protection meets matte majesty. It pledges not just high-grade shield but also exudes a presence that's both majestic and timeless, protected and esteemed for 7 illustrious years.

Dragon PPF **Immortal Pro Plus.**

Dragon PPF Immortal Pro Plus is a "State of The Art" automotive paint protection film. It's among the finest paint protection films available, with exceptional coating technologies. The multi-layer films have been engineered to ensure outstanding installation handling, optical clarity and long term durable properties and also comes along with 10 year warranty* and a substantial 10-mil thickness, setting a new standard in automotive protection and performance.

Sheen (Gloss Finish)

Lustrous Beauty with Healing Magic:

The 'Sheen' finish under Immortal Pro Plus is not just about luminance; it possesses the enchanting property of instant self-healing. Minor scratches vanish, ensuring your vehicle's brilliance remains untarnished.

Weighing between 350-400g/m², it exhibits a formidable Hydrophobic Property rating of R9-R10. Supported by a 10-year warranty and an Elongation Rate at Break of >300%, 'Sheen' ensures your car remains the epitome of perfection.

Haze (Matt Finish)

Sleek and Subtle:

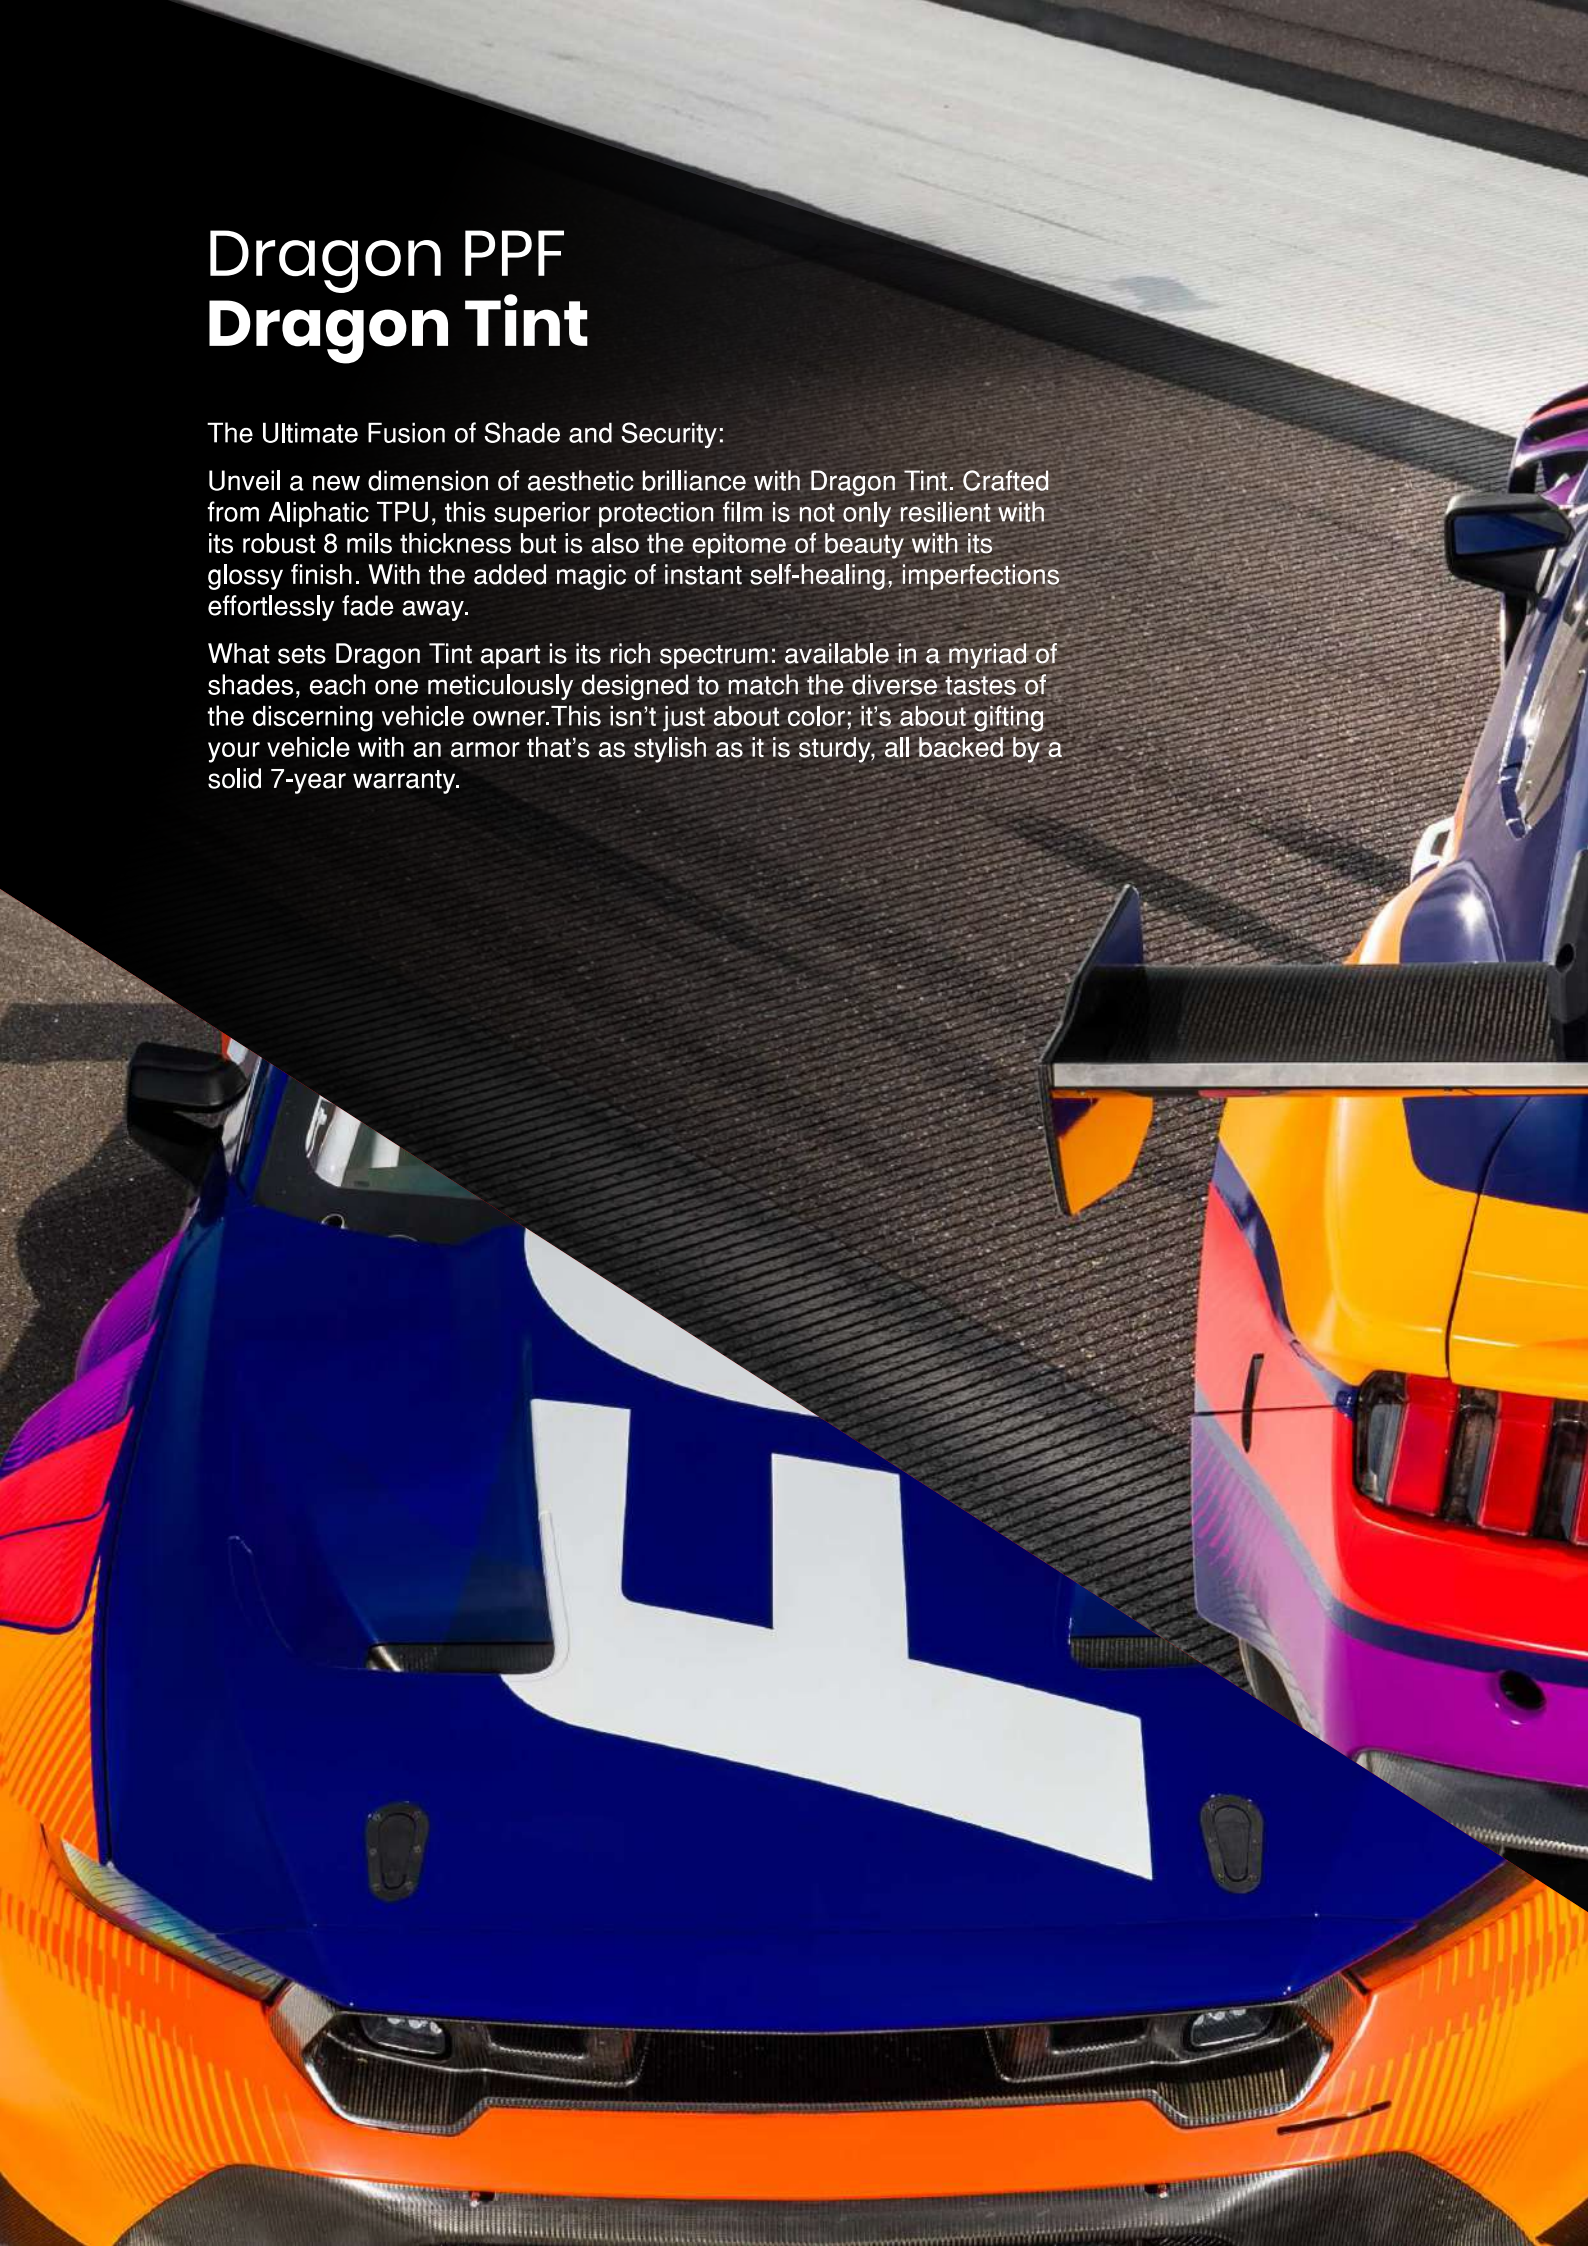

'Haze' encapsulates muted elegance. With technical might and understated charm, your vehicle stands as an emblem of class, safeguarded and refined for a committed 10 years.

Dragon PPF Dragon Tint

The Ultimate Fusion of Shade and Security:

Unveil a new dimension of aesthetic brilliance with Dragon Tint. Crafted from Aliphatic TPU, this superior protection film is not only resilient with its robust 8 mils thickness but is also the epitome of beauty with its glossy finish. With the added magic of instant self-healing, imperfections effortlessly fade away.

What sets Dragon Tint apart is its rich spectrum: available in a myriad of shades, each one meticulously designed to match the diverse tastes of the discerning vehicle owner. This isn't just about color; it's about gifting your vehicle with an armor that's as stylish as it is sturdy, all backed by a solid 7-year warranty.

Dragon Skin Vinyl Wrap

Ignite the road with Detailing Devil's Dragon Skin Vinyl Wrap - An audacious blend of unmatched style and unparalleled protection. Evoking the strength and allure of a dragon, this wrap is emblematic of our relentless pursuit of perfection.

DRAGON SCALE DESIGN

Our wrap transforms any vehicle with a range of finishes, from the gleam of metallic to the subtlety of matte and the smoothness of satin. Elevate your car's style to unparalleled heights with the world's finest.

ADVANCED MATERIAL EXCELLENCE

Using state-of-the-art polymers, Dragon Skin guarantees a finish that's as resilient and durable as the mythical beast it's named after.

UV PROTECTION PERFECTED

Dragon Skin protects against the harshest sun rays, ensuring your ride retains its fierce vibrancy.

AIR-RELEASE MASTERY

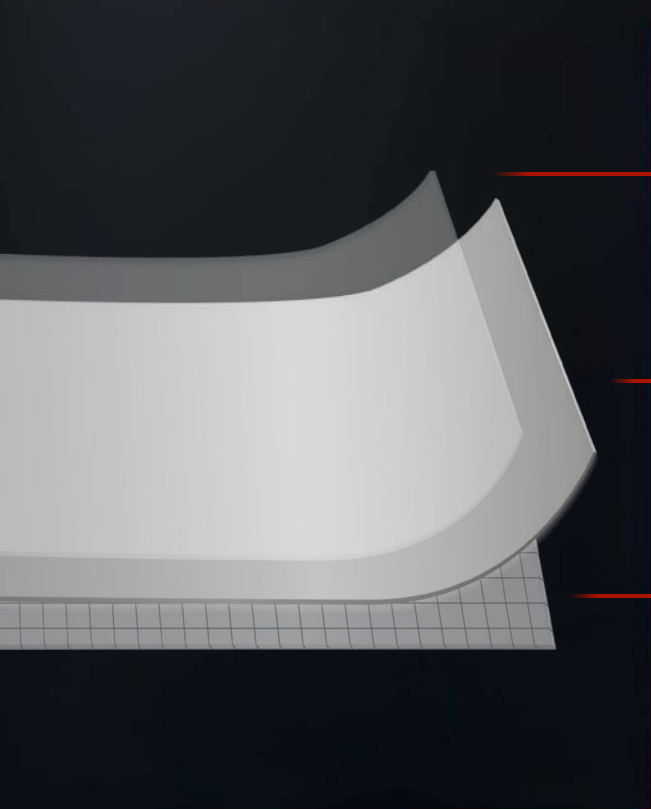

Our pioneering air-release technology ensures a flawless, bubble-free application, much like the smooth glide of a dragon in flight.

LOW MAINTENANCE, HIGH REWARD

With water-resistant properties, Dragon Skin keeps the elements at bay, ensuring a pristine look with minimal effort.

ADAPTABLE & FORM-FITTING

This wrap has been designed to adapt to every curve and edge, ensuring your vehicle is draped in a seamless, protective skin.

CLEAR PROTECTIVE LINER

Clear film that sits on top of the material protect from scratches and mottling.

SUPER GLOSS VINYL

Conformable super gloss composite cast / calendar material available in a variety of unique colors.

PET RELEASE LINER

PET release liner has 1" grid segments for ease of measurement.

Dragon Tint Window Film

Dragon Tint represents the pinnacle of multi-layered window film technology, combining several advanced technologies to provide superior performance in clarity, heat rejection, and protection. Designed for ultimate safety and comfort, this film shields you from UV rays and external threats through its innovative construction.

Safety First

Our window films incorporate a multi-layered protection system that prevents shattering and safeguards passengers from broken glass injuries. This robust technology ensures that your vehicle's windows are a first line of defense against outside dangers.

Glare Reduction

With advanced glare reduction properties, our window films provide superior visibility while maintaining the original appearance of your vehicle. This ensures optimal clarity and comfort during both day and night driving.

Heat Reduction & Cooling Efficiency

Our window films utilize cutting-edge heat absorption and reflection techniques to significantly enhance the cooling efficiency of your vehicle. This advanced technology helps manage infrared and solar energy, keeping your vehicle interior cool and comfortable.

UV Protection

Embedded within the layers of our window films are UV-blocking compounds that effectively shield against harmful UV rays. This offers comprehensive protection for both the vehicle's interior and its occupants, ensuring long-term preservation of your vehicle's interior and protection from harmful UV exposure.

Advanced Benefits of Our Window Films • • •

Our window films integrate several sophisticated features, ensuring that every layer contributes to superior performance and protection:

At Detailing Devils, we are committed to delivering exceptional quality and innovation in automotive care. Our window films are designed to meet the highest standards, ensuring that you enjoy unparalleled protection, comfort, and style. Experience the difference with Dragon Tint Window Film, where advanced technology meets ultimate performance.

Dragon Skin Pre-Cut Software

Your vehicle deserves the best protection against the everyday wear and tear of the road. Detailing Devils Studio, leveraging our specialized Dragon Software, ensures your vehicle is shielded with pinpoint accuracy.

At Detailing Devils Studio, it's a blend of cutting-edge technology and skilled craftsmanship. Our team is adept at maximizing Dragon Software's capabilities, ensuring your vehicle receives the finest protection. When you choose us, you're choosing unparalleled precision, protection, and peace of mind.

PERFECT FIT EVERY TIME

Utilizing our unique pre-cut templates, Dragon Software ensures that the protective film aligns perfectly with every curve and edge of your vehicle.

TIME-EFFICIENT SERVICE

Our advanced software accelerates the design and cutting process, meaning faster service turnaround and getting your vehicle back on the road sooner.

CUSTOMIZED COVERAGE OPTIONS

Tailor the level and areas of protection to suit your needs. Whether you seek full-body coverage or specific areas, Dragon Software delivers.

MAXIMIZED PROTECTION

The precision of our pre-cut designs ensures comprehensive coverage, safeguarding your vehicle from scratches, chips, and environmental hazards.

SUSTAINABLE SERVICE

Our efficient design process minimizes waste, ensuring we're as kind to the environment as we are to your vehicle.

SETTING THE STANDARD FOR TOP-NOTCH VEHICLE CUSTOMIZATION:

At our Red Carpet store, we take pride in delivering the finest in automobile upgrades. We cater to passionate car enthusiasts who seek the very best in personalized enhancements for their vehicles.

BESPOKE PAINTWORK

CUSTOM PAINT:

Understand that with us, customisation is not just a service; it's a collaboration. Share your vision, pick a shade, imagine a design, and watch as we elevate your vehicle into a masterpiece.

CARBON-FIBER ARTISTRY:

HANDCRAFTED PRECISION:

Leveraging aerospace-grade carbon fiber, we meticulously sculpt lightweight, robust parts. From bespoke steering wheels to sleek external aerodynamics, each piece accentuates performance and aesthetics.

TAILORED BODY ENHANCEMENTS:

SCULPTED PERFECTION:

Our custom body kits are more than just accessories; they're statements. Each set, designed with precision, amplifies the vehicle's stance and aerodynamic prowess, ensuring it's not just seen, but remembered.

INTERIOR REFINEMENT:

ELITE CRAFTSMANSHIP:

Revel in interiors tailored to perfection. From luxurious upholstery choices to avant-garde infotainment systems, we fashion interiors that resonate with opulence.

WHEEL ARTICULATION:

DISTINGUISHED ALLOYS:

Merging style with substance, our selection of alloys not only elevates the visual appeal but ensures optimal weight distribution and handling.

At Detailing Devils' Red Carpet, it's not about owning a vehicle; it's about possessing a work of art, where every stitch, curve, and roar epitomizes passion and perfection.

Diamond Nano Armor
Ceramic Coatings ...

DNA CERAMIC COATING SUITE

Detailing Devils' DNA Ceramic Coating Suite:

The Technological Vanguard of Automotive Protection Elevate vehicular defense with the precision-engineered DNA Ceramic Coatings from Detailing Devils:

9H DNA RE-LOAD

1 YEAR WARRANTY

9H DNA Reload: Infused with high-density nano-ceramic particles, this coating champions a potent barrier against contaminants. Boasting a broad-spectrum pH (1-12) chemical resistance, it manifests an impeccable blend of aesthetics and tenacity, underscored by a 1-year warranty.

9H DNA PRO

3 YEARS WARRANTY

9H DNA Pro: Integrating augmented UV resistance with nano-technological prowess, the 9H Absolute ensures paint longevity despite solar extremities. It's a harmonized synthesis of robustness and flexibility, validated by a 3-year warranty.

10H DNA ABSOLUTE

5 YEARS WARRANTY

10H DNA Absolute: Exemplifying elite protection, the 10H Absolute, rated with unparalleled 10H hardness, integrates advanced self-healing capabilities, allowing superficial imperfections to self-correct. A testament to resilience and luster, it's endorsed by a 5-year warranty.

The DNA coatings employ a unique self-levelling and cross-linking dual-layer system, meticulously merging two specialized ceramics to attain a paramount hardness on the MOHS scale and an unmatched gloss. This technologically advanced concoction offers multi-dimensional protection: scratch resistance, mud-repellence, hydrophobicity, and superior chemical defense, ensuring surfaces remain unblemished and safeguarded.

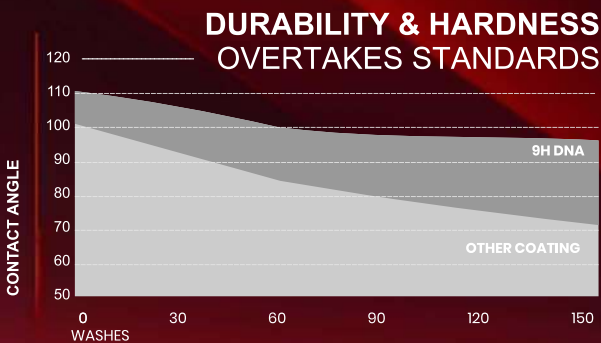

DIAMOND NANO ARMOR

SPECIFICATIONS

Surface Type	: Automotive Paint
Durability	: 1, 3 & 5 year
Coating Thickness	: 700-800 nm
Temperature Durability	: 150 C
Chemical Resistance	: 12>pH>1
Curing Period	: Overall 48 Hours

10H DNA GRAPHENE

In the realm of auto protection, Detailing Devils embarks on a new chapter with the avant-garde 10H Graphene Coating. At the nexus of nanotechnology and passion, this exceptional treatment redefines what you can expect from a protective sealant:

Impenetrable Resilience: A robust 10H hardness not only guards against the daily challenges but creates an enduring defense against incidental scratches and contaminants.

Pristine Hydrophobic Action: With water beads cascading effortlessly off the surface, anticipate a pristine look with minimized water spot risks, making cleaning routines more efficient.

Superior Heat Safeguard: Employing graphene's innate thermal attributes, this coating acts as a sentinel against UV degradation and scorching temperatures, ensuring the vibrancy of your paintwork endures.

Defense Against the Elements: From the corrosiveness of road salts to the acidity of unexpected bird droppings, the coating stands as a bastion against environmental aggressors, safeguarding your vehicle's majestic shine.

Gleaming Refinement: Beyond mere protection, the 10H Graphene Coating accentuates the richness and depth of your car's hue, culminating in a sheen that rivals the finest mirrors.

Detailing Devils invites you to experience an unparalleled fusion of technology and aesthetic mastery. Embrace the future of auto protection and aesthetics with the 10H Graphene Coating.

MORE THAN 80% HYDROPHOBIC EFFECT

A huge advantage of this product is its outstanding hydrophobic effect and durability. Long term tests in real life conditions have shown durability over 12 months with a hydrophobic effect exceeding 80% of the outcomes just after the coating.

LONGER DURABILITY

Our graphene coating is much sturdier and more effective than ceramic coating and other graphene coatings in the market. It is thin, lightweight, and offers an unsurpassable and glossy finish to the vehicle for a long period of time.

BRAND NEW INNOVATION

The DNA Graphene utilizes the latest nano-technology to give your vehicle 6+ years of high-quality protection.

10H HARDNESS

It is a coating that lasts for a long time, thanks to its 10H Hardness feature.

ULTRA-HIGH GLOSS & DEPTH OF COLOUR

It gives a rich, attractive, and deep gloss to the vehicle's surface that takes the elegance and appearance of a vehicle to another level.

3D GRAPHENE NANO STRUCTURE

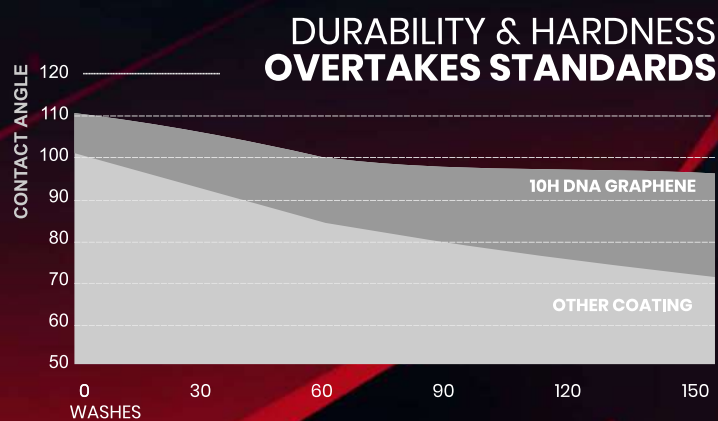

WATER, STAIN & SCRATCH RESISTANT

6+ YEARS OF HIGH-QUALITY PROTECTION

FEATURES BENEFITS

SPECIFICATIONS

Surface Type	: Automotive Paint
Durability	: 6 year
Coating Thickness	: 800-1,100 nm
Temperature Durability	: 150 °C
Chemical Resistance	: 12<pH>1
Curing Period	: Overall 48 Hours

CRYSTAL VISION

Crystal Vision is one of our most reliable and advanced car coatings specifically developed for windshields.

It's excellent hydrophobic feature and water-beading effect makes water form tiny beads and slide down the surface and leave it completely dry. Hence, better vision while driving in rains. The anti-glare feature of this coat promotes better night vision.

This coating adds thickness to the surface and prevents it from breaking off easily. In addition to this, the superb oleophobic feature prevents the windshields from surface harms like bird-poops, tree sap, etc.

FEATURES & BENEFITS

UV Protection

Oleophobicity

Hydrophobicity

Transparent Coating

Better Night Vision

Chemical Protection

Less Hard Water Stains

Improves Visibility During Rains

SPECIFICATIONS

Surface Type	:	Glass
Durability	:	6 months
Coating Thickness	:	75-1000 nm
Temperature Durability	:	275 °C
Chemical Resistance	:	13<pH>1
Curing Period	:	Overall 24h

WHEEL NANO ARMOR

Wheel Nano Armor is the best protection coat developed for all types of wheels specially alloys which has been formulated to withstand heat created by the braking system of vehicles.

In addition to that, it protects wheels against dirt, mud and sludge, with a highly durable protection coat that prevents them against oxidation and harmful UV rays while making their surface resistant to splashes of muddy, dirty water and thus, helps them with keeping up their shine and a spot-free finish.

It forms an outstanding rather permanent chemical bonding with the surface of wheels and gives them an excellent stain & contaminant-resistant ability.

FEATURES & BENEFITS

UV Protection

Transparent Coating

Permanent Bond

Prevents Corrosion

Chemical Protection

High Gloss

Protects From Brake Dust

Safe For Chrome Or Alloy Wheels

SPECIFICATIONS

Surface Type	: Alloy, Metal
Durability	: 6 - 9 months
Coating Thickness	: 200-300 nm
Temperature Durability	: 275° C
Chemical Resistance	: 12>pH>1
Curing Period	: Overall 24h

NANO SHINE ARMOR

Nano Shine Armor is a revolutionary tyre coating that has been specifically developed to restore the black shine of tyres.

Unlike waxes and polishes, it is non-oily, non-greasy, environmentally-safe and silicone free tyre coating with properties like mud-repellence and permanent adhesion.

Silicone based coatings are quite destructive as they promote tyre yellowing, cracking and can destroy the UV protectants that are essential to the life, color, and texture of a tyre. Nano Shine Armor doesn't wear off easily and gives tyres a highly durable and protective coating that protects them from yellowing, fading and cracking over a period of time and helps in maintaining their spotless black shine.

FEATURES & BENEFITS

Nano Base Polymer

Non-Greasy

Oil And Silicone Free

Adds Shine

Water-Based

Prevents Dullness

Chemical Protection

Highly Durable

SPECIFICATIONS

Surface Type	: Rubber
Durability	: 3 to 6 months
Coating Thickness	: 200-300 nm
Temperature Durability	: 110° C
Chemical Resistance	: 10>pH>1
Curing Period	: Overall 24h

Interior Protection

Armor Cabin Care ...

NANO TRIM ARMOR

Nano Trim Armor is a special water based nano tech coating used to bring back life to faded interiors.

Environmental elements and prolonged use can damage any vehicle affecting dash trim, and other interior parts like wood panels, doors, etc. and forms permanent adhesion with the surface applied on so that it doesn't fade or lose their shine. Usually, silicone products add temporary shine and do not offer any longtime solution. Moreover, silicone oils have been known to dry out the applied areas creating a bigger problem of leaving a greasy residue even after buffing.

Nano Trim Armor makes sure to overcome all these shortcomings and give car interiors a permanent protective coating.

FEATURES & BENEFITS

Non-Greasy

Adds Shine

UV Protection

Prevents Fading

Anti-Static

Prevents Scratches

Silicone Free

Permanent Adhesion

SPECIFICATIONS

Surface Type	: Plastic
Durability	: 6-12 months
Coating Thickness	: 200-300 nm
Temperature Durability	: 110° C
Chemical Resistance	: 10>pH>3
Curing Period	: Overall 24h

FABRIC NANO ARMOR

Fabric Nano Armor is an industrial nano coat which has been specifically formulated to protect car's textile surfaces from fading, stains, water or any other impurities.

The oleophobic feature of Fabric Nano Armor protects fabrics from water and oil based stains. It also makes them more breathable and extremely durable due to anti-fouling ability.

In addition to that, it makes ordinary fabrics waterproof and easy to clean. Not just protection, it also gives the interiors a pleasant fragrance.

FEATURES & BENEFITS

Hydrophobicity

Anti-fouling

Oleophobicity

Prevents Fading

Uv Protection

Protects Texture & Color

Fights Built-up Bacteria.

Makes Fabric More Breathable

SPECIFICATIONS

Surface Type	: Car Textile, Suede
Durability	: Upto 6 months
Coating Thickness	: ~75-100 nm
Temperature Durability	: 110° C
Chemical Resistance	: 11>pH>1
Curing Period	: Overall 24h

LEATHER NANO ARMOR

Leather Nano Armor is a protective nano tech coating applied to car's leather surfaces in order to protect them from water and oil based stains while making them anti-microbial and extremely durable.

Leather surfaces coated with Leather Nano Armor stay cleaner for a longer time and become protected against dirt & grime.

Leather Nano Armor makes ordinary leather waterproof and easy to maintain.

FEATURES & BENEFITS

Hydrophobicity

Anti-fouling

Oleophobicity

Extends Leather Life

UV Protection

Stain-free Surface

Hassle-free Maintenance

Protects From Cracking

SPECIFICATIONS

Surface Type	: Leather or Leatherette
Durability	: Upto 6 months
Coating Thickness	: ~75-100 nm
Temperature Durability	: 110° C
Chemical Resistance	: 10>pH>3
Curing Period	: Overall 24h

Exterior & Interior | Detailing
Skin Restoration System ...

SKIN RESTORATION SYSTEM

Skin Restoration System (SRS) is a detailed paint correction and restoration process that has been developed to eradicate stubborn impure contaminants from vehicle's surface and help restore its factory finish and appearance through a step by step process.

It is a 4 step process under which we target surface level harm like scratches, swirl marks and clear coat haze or those scratches that have gone through the painted surface.

After undergoing skin restoration process, cars exhibit a fine, sleek and smooth finish and can further undergo protective coating & PPF process.
